Remarks/Directions

Client Rmks: **Start making family memories on beautiful Salerno Lake! This private 3-season cottage sits on approximately 0.8 acres with a flat, easy-to-enjoy lot stretching from the cottage to the water. With 3 bedrooms and 1 bathroom, there's plenty of room for family and guests to enjoy classic cottage living. The open-concept living space is filled with natural light and features a wall of windows showcasing broad lake views. Whether you're gathering for meals, relaxing after a day on the water, or simply taking in the scenery, the lake is always part of the experience. A lakeside bunkie provides additional space for guests or the kids, while the generous waterfront area offers plenty of room for swimming, boating, fishing, and summer fun. Salerno Lake is approximately 4 km long and is well suited for a variety of water sports and fishing for multiple species. The cottage is waiting for its next family and ready for some TLC, offering an opportunity to bring your vision and create a place that can be enjoyed for years to come. Located in the southern part of Haliburton County, Salerno Lake also offers a shorter drive from the GTA while still delivering the peace and privacy of cottage country. A great opportunity to get on the lake, add your personal touches, and start making your own family memories.**

Re: On-site Sewage System Maintenance Inspection Program
(Summer Re-inspection Program)

As you may know the On-site Sewage System Maintenance Inspection program has begun this spring. The purpose of this program is to ensure that existing on-site sewage systems do not have any adverse impacts on the watershed and public health. Please note that it is the property owner's responsibility to ensure their private on-site sewage systems are in good working order and are in compliance with the standards outlined in Part 8 of the Ontario Building Code. Through these preventative measures we can eliminate any hazards and preserve the biodiversity within our community. These inspections provide us the information needed to determine the performance and condition of a property owner's system and benefit future owners with information regarding the existing system.

A preliminary site inspection has been conducted on your property on August 11, 2021 and it has been noted that:

- ☒ Sewage disposal system appears to be in compliance with current Building Code requirements
- ☒ No re-inspection of the system is required at this time.
- ☒ No record of installation report or permit on file. Should you have a copy, please provide one.
- ☒ More information on your sewage disposal system is required
 - Please return your property questionnaire
- ☐ Sewage disposal system could not be located
- ☐ Sewage disposal system requires some repair and/or maintenance
- ☐ Sewage disposal system appears to not be in compliance with current Ontario Building Code requirements

With respect to any issue outlined above, a re-inspection may be required in order to assess the potential problem and discuss any remedial action required. Please contact the Building and Planning Department by:

Amount from your previous period	\$202.37	
Amount we received on Mar 23/26	-202.37	
Your electricity charges		\$191.26
Total amount you owe		\$191.26

We plan to read your meter between Sept 15, 2026 and Sept 21, 2026. Not accessible or visible? Please contact us.

If payment is not received by Jul 8, 2026, a late payment charge of 1.5% compounded monthly (19.56% per year) will be calculated from the statement date and applied to your account.

Powering 1009 SPENCERS TRAIL

Point of Delivery: 10974857

Residential - Medium Density

Electricity \$2.52

This is the cost of generating the electricity you used this period. Usage is measured in kilowatt-hours (kWh) and depends on the wattage of devices you use and how long you use them. The Ontario Energy Board (OEB) sets the cost per kWh and the money collected goes directly to the electricity generators.

Delivery \$210.34

This is the cost of ensuring you have reliable power when you need it. Hydro One collects this money to build, maintain and operate the electricity infrastructure, which includes power lines, steel towers and wood poles covering 960,000 sq. km. A portion of this cost is fixed and a portion varies depending on the amount of electricity used.

Regulatory Charges \$0.84

The Independent Electricity System Operator (IESO) uses this money to manage electricity supply and demand in the province, which is necessary to ensure that there is enough electricity to meet Ontario's needs at all times.

HST (87086-5821-RT0001) \$27.78

Ontario Electricity Rebate -\$50.22

Total of your electricity charges \$191.26

Notice: The Tiered threshold has decreased to 600 kWh/month for the summer season (May 1 – Oct 31). For details, see the Tiered breakdown next to the Electricity line.

Salerno Lake

Location: 20 km (12.5 mi) south of Haliburton
 Elevation: 292 m (974 ft)
 Surface Area: 144 ha (357 ac)
 Mean Depth: 6 m (20 ft)
 Max Depth: 13.2 m (44 ft)
 Way Point: 78° 29' 00" Lon - W 44° 51' 00" Lat - N

Fishing

This long, narrow, shallow lake resembles a wide river. It's even set in a broad valley much like a river valley. The lake was formerly called Devil's Lake, and has water that is stained the colour of weak coffee. Although development has taken its toll on this once fantastic fishing lake, more and more anglers have started to practice catch and release and the fishing quality has been slowly improving at the lake over the past few years.

Anglers visiting Salerno Lake can expect to find mainly smallmouth and largemouth bass. The shallow, weedy nature of the lake is prime habitat for bass and anglers should work weed areas for the best results. Try stripping a streamer pattern or a brighter coloured jig through the weeds for ambush ready bass. During slower times, a tube jig can work quite well.

Walleye fishing in Salerno Lake is definitely slower than success for bass. Walleye can be found cruising the weed lines during the evening period. Trolling a worm harness slowly along these weed lines or still jigging off a shoal can be effective. One hot spot for walleye is the 3 m (10 ft) shoal found in the southwestern end of the lake. Fall is one of the best time to fish for walleye. Not only are the walleye bulking up for winter and usually extremely willing to hit anything that moves, but there are no launch line-ups, no pleasure boaters out scaring the fish. As the water gets colder, walleye move deeper, where temperatures are more stable. The majority concentrate along the edge of drop-offs, making them fairly easy to find.

While muskellunge are present in Salerno Lake, the average angler may have a tough time finding them. Try working a jointed Rapala in a Fire Tiger pattern, or an X-Rap Jointed Shad in Gold. The jointed lures have a very pronounced swimming motion which can draw strikes from these big predators, especially in the fall. Muskie are very sensitive to sound, and scatter when they hear a boat approaching. They will return to where they were once the boat has past, but it is good to have your lure at least 70 m (200 ft) behind the boat.

Area Indicator

Directions

This long, boomerang shaped lake lies to the south of the settlement of Irondale. Irondale Road parallels Highway 503 for a short bit and provides access to a few side roads that lead to the lake. Salerno Lake Road is your best bet to find public access. Some visitors simply launch at the Salerno Lake Dam, where there is a rough cartop type launch available. Most continue to the south end of the lake and launch at the more formal site near the White Lake Dam.

Facilities

Surrounded by private cottages, there are limited public facilities at the lake. Visitors will find a boat launch at the southeast end of the lake near the dam.

Other Options

To the east of Salerno Lake lies the remote access Devils Gap and Maple Lakes. Both lakes are quite secluded and offer fishing opportunities for smallmouth bass and largemouth bass. It is rumoured that Maple Lake also supports a population of walleye. Access to Devils Gap Lake is limited to a rough 4wd road/trail, while Maple Lake requires some bushwhacking to find.
